

Bench Wheels

Bench Grinding Wheels are offered in Aluminum Oxide and in Green Silicon Carbide in a wide selection of sizes and grits. Designed for use on bench and pedestal grinders, these vitrified wheels offer high performance on a multitude of applications.

All bench wheels are packaged with telescoping bushings to accommodate popular machine spindle sizes.

Vitrified Wheels for Bench Grinders HEAVY DUTY

ALUMINUM OXIDE GRINDING WHEELS

- General purpose tool sharpening
- Vitrified bond (heat tested)
- Light stock removal
- Use on ferrous metals (carbon steel, steel and iron)

WHEELS FOR LIGHT DUTY BENCH GRINDERS

Aluminum Oxide Bench Grinding Wheels	Grit	Max. RPM	PRICE
BA612036 6 X 1/2 X 1	A36	4,140	\$10.99 EA
BA612060 6 X 1/2 X 1	A60	4,140	\$10.99 EA

Item No.	Wheel Size	Grit	Max RPM	PRICE
55.401	6" x 3/4" x 1"	36	4,140	\$11.95 EA

55.430	14" x 2" x 1" (1-1/2")	60	1,775	\$125.00 EA

GREEN SILICON CARBIDE BENCH GRINDING WHEELS

- Vitrified bond (heat tested) • Sharp grains
- Burr free cutting • Fast cutting
- Use on tungsten carbide tipped tools, ferrous and non-ferrous metals
