Unitorch® Hand Torch

Ideal for the small job in a crawl space under a house or up in an attic.

They are designed as a lightweight portable flame tool that compliments the needs of all tradesmen. Choose from several Unitorch® hand torch models. Each one has its own benefits and features. They use the Unitorch® regulator and can be operated with either Propane or Mapp® without changing the tip.

PCV25 Pencil Flame Hand Torch

- All brass construction.
- Operates efficiently on propane or Mapp® gas.
- Adjustable Pencil Point Flame to Large Brush Flame.
- Excellent for soldering copper tube and thawing out frozen pipe.
- Fits All Disposable Cylinders (CGA 600) 1"-20 connection

Unitorch® Hand Torch with

Twister® Swirl Combustion Tip produces a small high energy hot flame even in windy conditions. A helical rotor inside of tip premixes the fuel gas and air to achieve maximum combustion resulting in a small intense flame with concentrated heat.

CYLINDER NOT INCLUDED

Target Heat Propane
1750°F (954°C)
Mapp® 2400°F (1316°C)

#RP3T5 \$72.50 EA

#PCV25 \$23.50 EA

LPG Hose Assembly #40407-36
ALLOWS YOU TO USE A LARGE TANK INSTEAD OF A DISPOSABLE CYLINDER **\$27.95 EA**
 Equipped with hand wheel soft-nose POL inlet by 1" - 20 male swivel outlet with shutoff. Use to connect appliances with CGA600 1"-20 connections to large cylinders or tanks - 5' long.

ADAPTER – Allows a disposable tank style hand torch to be connected to a standard 9/16-18 LH Male (B") hose.

#BRS-461 \$27.95 EA

Disposable cylinder stand. Fits both 14.1 and 16.4 oz sizes. **#A106 \$11.95 EA**

Unitorch® Hand Torch with Instant Ignition Twister® LP Silver Bullet Combustion Tip which eliminates the need for a flint lighter. Simply pull down on the tip's bullet casing to activate the piezo electric spark ignitor.
