**FV215TA3545** \$364.17 FUSION™ 250 Gun & w/15' Cable Replacement for Fabricator @ 252i

Uses #2 Gun Replacement Liner/Conduit

Tweco® offers a full line of Mig-Guns for a variety of welding applications; ranging in amperages from 160 to 600 for semi-automatic and fully automatic applications. Tweco® Guns handle wire sizes from .023 to 5/64" in the lower-to-mid range and .035 to 1/8" in the mid-to-higher range. All guns are rated for welding applications with CO<sub>2</sub>; amperages may be reduced with mixed gases. There are many variables that will determine actual amperage rating.

Tweco® Mig-Guns are equipped with 60" conductor tubes as standard.

## NO.2 MIG-GUN ASSEMBLIES
