

DEPRESSED CENTER GRINDING WHEELS RESIN BOND

Type 27 Metal ■ Unique dual grit construction for rough and finish grinding with one wheel. Reinforced with high tensile strength fiberglass. High material removal rates.

MAGNA FLEX®

Type 27 Flexible Grinding Wheels ■ Unique aluminum oxide/silicon carbide grain combination for fast, clean material removal. No-loading on aluminum, brass, fiberglass, titanium material. Clean grind on high temperature steel and stainless materials.
 ■ Flexibility in wheel allows it to follow the contours of the work surface, finish and production grind with one wheel.

Reusable Hubs

Part No. 175996
\$16.95EA
For T27 Grinding Wheels
Size: 5/8"- 11

- Precision machined components provide safe reliable use
- Saves cost of throw away flange

DISPOSABLE METAL HUB

NEW

DISPOSABLE METAL HUB

UNIVERSAL Spanner Wrench

Part No. 95008
\$10.99 EA

- Adjustable Wrench for tightening and loosening center nuts
- Fits all center nuts
