

Double Insulated with Auto-Stop Carbon Brushes  
**SDS, SDS Max, and Spline Rotary Hammers**  
**UHE28 Multi & BHE22**

Metabo hammers use standard SDS, SDS Max or Spline carbide bits. Their highly efficient ball and roller bearing motors are rated between 5.2 and 10.5 amps, and all have Metabo's unique Winding Protection Grid. This helps their purer copper armature windings last up to 5 times longer.

All tools are fitted with electronic controls, ranging from speed regulators to sophisticated winding-temperature monitoring. They also have the unique Metabo slip clutch, which protects both the operator and the tool when an obstruction is encountered. To operate the tool as a regular drill, simply turn the 'rotation only' switch.

With a wealth of features – from LED displays showing spindle rotation to electronic soft start – Metabo has the rotary hammer that is designed for your particular project

**REVOLUTIONARY NEW Feature**

**Metabo CODE! system**

Now available for the following Tools: KHE-D28, KHE 32, KHE-54, KHE-55, KHE-75, MHE 65, UHE 28 Multi, and SBE-1010 (hammer drill).

A single Metabo CODE! Key can be used to protect more than one tool.

Electronic theft protection at the touch of a button. With the separately available Metabo CODE! key, you can lock the power tool to protect it from unauthorized use.

Once locked the tool will not operate until the unlock CODE! key button is pressed.

**Part No. 22500**  
**Price \$69.00 Ea**

**UHE28 Multi (3-jaw and SDS Chuck)**  
 1 1/8" Multi-purpose Hammer w/Rotostop  
 Order #00961

To implement 'CODE!' System requires purchase of accessory Code Key

**BHE22**  
 7/8" SDS Rotary Hammer  
 Order #00242

**UHE 28 Multi Hammer**  
 Versatile tool with three functions

- 1-Drilling
- 2-Impact Drilling
- 3-Chiseling

...all in a single unit!

Unique to this tool is a rotary hammer function with a two-speed gear train that allows for the equally effective drilling and chiseling of concrete, brick, and other masonry materials. And, by simply changing speeds, you can drill effectively into virtually any non-masonry material: wood, steel, plastic, glass, etc. You activate the percussion stop to permit ordinary drilling – in either of the two speeds – and the rotation stop to permit chiseling. To further enhance versatility and functionality, the UHE Multi Hammer is furnished with a quick-change SDS-Plus chuck...and an additional quick-change three jawed chuck that accepts a full range of non-masonry bits and allows bit changes without use of tools.

**When you're looking for on-the-job versatility and long-lasting performance, the Metabo UHE28 Multi Hammer gives you more... much more!**

Model #	UHE28 Multi	BHE22 Multi
Order #	00961	00242
Price Ea	\$475.08	\$282.88
Single blow energy (measured in joules)	0-2.4	1.8
2-speed gear-box	yes	-
Suitable for light chiselling work	12 settings	(use w/31409)
Percussion stop for drilling only operations	yes	yes
Rotation stop	yes	-
Aluminum die-cast gear housing	yes	yes
Reversing facility	yes	yes
Electronic speed stabilizer	yes	-
Variable speed controlled by adjusting dial	yes	-
Maximum Tightening Torque	195 inch lbs.	97 inch lbs.
Capacity- in concrete using solid bits	1 1/8"	7/8"
Capacity- in brickwork using thin wall core bits	3 1/8"	-
Capacity- in mild steel	5/8" - 5/16"	1/2"
Capacity- in softwood	1 9/16" - 3/4"	1 3/16"
No-load speed (RPM)	0-950/0-2600	0-1000
No-load blows per minute (BPM)	0-4400	0-4600
Amps	8.0	5.2
Rated input watts	1010	660
Tool weight	8.1 lbs.	7.2 lbs.
Shipping weight	13.5 lbs.	11.6 lbs.
Length	15"	13"
Carrying case (standard)	#34445231	#34445253
Standard Equipment: Side handle	#31400077	#31400077
Depth gauge	#27288	#27288
1/2" Keyless 3-jaw chuck	#31921	-
SDS chuck	#31920	#31920
