

Pipe Welding Clamps

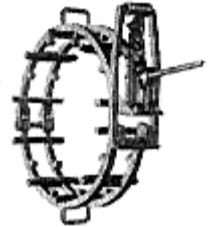

(PATENTED)

**No. 1
"STANDARD"
("TIPTON")**

Holds the two ends of pipe together while welding. Tightened with hand lever or with powerful "Simplex" hydraulic jack providing over 16,000 lbs. pressure. Easy, quick and accurate alignment.

**No. 2
"HYDRAULIC"
("GENERAL")**

"NO-TACK" TYPE

**No. 3
STANDARD
"NO-TACK"
("TIPTON")**

The arched cross-bars permit complete round-about welding without removing clamp. This eliminates tack-welds and makes better x-rays.

**No. 4
