PRO-MAG BURNING SQUARE

The Curv-O-Mark® Pro-Mag Burning Square is a precise tool used in structural thermal cutting and layout. The tool base is a perfect square containing powerful cast-in magnets. This permits placement in any position. The tool surface is embossed with a protractor inscribed with two 90-degree quadrants graduated in 1-degree increments. The top of the tool carries an 18-in. ruler blade divided in 1/8-in. increments. The ruler can be locked in place at the desired angle setting by hand tightening of the adjustment knob. The ruler blade is on a raised plane. This permits its use as a straight edge when flame cutting, without distortion or marring. The blade will also accept attachments or extensions that allow an overall length up to 72 in. The Burning Square is made of cast aluminum.

Angles can be easily locked in place by hand tightening the adjustment knob.

place by hand tightening the adjustment knob. The ruler blade is on a raised plane, which makes it ideal for use as a straightedge when flame cutting, without distortion or marring.

MAGNETIC BURNING GUIDE

Designed for use with a burning torch or as a straight edge, the Burning Guide is cast of strong, durable material to withstand heat and spatter. The tool's base has three 30-pound pull cast-in magnets for use in any position. A 24-in. blade on a raised plane is standard.

ATTACHMENTS FOR PRO-MAG BURNING SQUARE & MAGNETIC BURNING GUIDE

FLANGE ALIGNER BASE

0721-0029
\$95.07 EA

Cast-in magnets hold the flange aligner base in either a flat or vertical position. (Square not included.)
