

Squirt Gas Bump Test Kit, less cylinder, but with required fittings and adapters, complete with instructions. Uses a

disposable cylinder of 11 liters of gas, works without a regulator and gives you a reading as fast as 15 seconds. Its ease of use promotes tests in the field, on the shop floor or in the truck. The kit comes with three balloons and all necessary tubing and fittings to attach to the instrument, packed in a vinyl carrying bag.

Contents: Pressure 155 psia; approximately 11 liters at 70° F.

Model R & RP Calibration Check Kits

Consist of a regulating valve that includes a gauge to measure container pressure, an adapter hose, sensor adapter (where applicable), instructions, and a case fitted with room for two cylinders of calibration check gas (not included). Select Kit below by cylinder type and regulator flow requirement.

Check Kit, Model R, with 1.5 lpm regulator – complete	#476609	\$230.55 Ea
Check Kit, Model R, with 0.25 lpm regulator – complete	#476610	\$248.75 Ea
Check Kit, Model RP, with 1.5 lpm regulator – complete	#477150	\$230.55 Ea
Check Kit, Model RP, with 0.25 lpm regulator – complete	#477149	\$248.75 Ea
Regulator only, Model R, 1.5 lpm	#459948	\$161.22 Ea
Regulator only, Model R, 0.25 lpm	#459949	\$161.22 Ea
Regulator only, Model RP, 1.5 lpm	#467896	\$158.89 Ea
Regulator only, Model RP, 0.25 lpm	#467895	\$158.89 Ea

Cylinder-Holders

Single Portable Cylinder-Holder

The Single Portable Cylinder-Holder is designed for use with all MSA Model R

Deluxe Regulators

Model RP Combination Regulators

Two regulators in one. Designed for use with all Model RP and Econo-Cal Calibration Cylinders. Supplied with calibration tubing and special fitting.

Trigger activation allows a bump test or calibration check in the "Squeeze" mode or fixed-flow calibration in the up or "Locked" position.

RP, combination, 1.5 lpm	#711174	\$199.00 Ea
RP, combination, 0.25 lpm	#711175	\$199.00 Ea

and Model RP cylinders. It fits neatly on a work bench or shelf, and its unique design ensures that the calibration cylinder (with the regulator attached) always stays where you put it. Single Cylinder-Holder, 6" wide x 13" long x 4" high

#710386 **\$50.90 Ea**

Double Cylinder-Holder, Wall-Mounted

The Wall-Mounted Double Cylinder-Holder holds all MSA Model R and Model RP cylinders. A molded base and holding straps keep the cylinders securely in position, yet both cylinders and/or regulators can be easily changed. The holder is ideal for field station calibrations

and can be easily mounted for workbench applications. Double Cylinder-Holder, 17" high, 10" wide, 3V" deep at base

#710483 **\$62.50 Ea**

Gas Miser® Manifold / Cylinder-Holder

The Gas Miser Manifold is not only a cylinder holder but it also incorporates a 4-station "bump test" or calibration manifold. It works with Model RP and Econo-Cal cylinders

and Gas Miser regulator on any pumped or aspirated instrument. The manifold will supply the correct amount of gas required and will bump test or calibrate up to four instruments simultaneously. Gas Miser regulator sold separately. 4-station Manifold
