 500 Feet

VERSABRITE™ #2250BLK \$22.25 Ea

Versabrite™ is made of Xenoy/Polycarbonate material and features a multiple position swivel head that allows you to point the bright (6,000 Candlepower / 7 Lumens) beam in any direction. Due to its compact size and only .198 lbs. of weight the VersaBrite™ securely clips on to visors, caps and clothing. It includes 2-AA cell alkaline batteries providing 1.80 Watts (3 Volts @ .60 Amps) with a Battery Burn Time of 5-6 Hours @ 50° F and is water resistant (but not for diving applications). Black

MINI -SYSTEM MITYLITE™ 2-AAA #1950CBLK \$19.50 Ea

Mitylite™ is made of unbreakable space age hi-impact polycarbonate resin and is 4.5" in length. With 7 Lumens, and 6,000 candlepower, its laser spot Xenon lamp module can cut through water, smoke, fog, and rain making it a perfect light source for all applications. The MityLite™ is compact, lightweight and equipped with a shirt clip, making it easy to fit into pockets, purses, tool kits, camera bags, or glove compartments. Accidental turn on and mechanical switch failure is eliminated because of the rotary on/off switch. 2 ea. Alkaline 'AAA' Cell Batteries provide 1.11 Watts (3 Volts @ .37 Amps) for a Burn Time of 2 Hours @ 50° F. The MityLite™ is submersible to 500 feet. The system includes; batteries, spare lamp, Lite bender, two night vision discs (red and blue/green), spare o-ring and a stainless steel split ring. The container is a very stylish and attractive case. The Weight of MityLite™, including batteries - .156 lbs. Black

#2300BLK MITYLITE™ 2-AA \$19.95 Ea.

The Mitylite™ is made of Xenoy/Polycarbonate unbreakable chemical resistant resin material. Its focused laser spot Xenon beam can cut through smoke, fog and rain making it a perfect light source for all applications. Accidental turn on and mechanical switch failure is eliminated because of the rotary on/off switch. It includes 2-AA cell alkaline batteries (4.2 Burn Time) and is water resistant (but not for diving applications). 8,000Candle Power, 8 Lumens, Watts - 1.8 (3 Volts @ .60 Amps), Weight with Batteries - .268 lbs). Black

SABRELITE™ RECOIL™ #2010BLK \$69.90 Ea

The Recoil™ 2010 is Pelican's flagship LED flashlight. Recoil LED Technology™ produces a white collimated beam that's as bright as an incandescent light of 32 Lumens and provides 10,000 hours of lamp life. Includes 3 each Alkaline 'C' Cell Batteries providing 1 Watt at 4.5 Volts, with a Battery Burn Time of 50+ hours @ 50° F. The rugged lightweight Xenoy® body is submersible to 500 feet and a twist on/off lens shroud eliminates accidental discharge. Weight with Batteries - .370 lbs. Black

STEALTHLITE™

The StealthLite™ is made of unbreakable corrosion proof ABS body and hi-impact polycarbonate lens. Its10,000 Candlepower 25 Lumen laser spot xenon lamp module gives an extremely bright, white beam, which can cut through water, smoke, fog and rain making it a perfect light source for all applications. The StealthLite™ has a one handed on/off locking switch plus a heavy-duty lanyard. It includes (4) AA cell alkaline batteries (Battery Burn Time 4 Hours @ 50° F) 3.18 Watts (.53 Amps @ 6 Volts) Weight with Batteries - .493 lbs

#2400BLK (Black) \$35.50 Ea
#2400YLW (Yellow) \$35.50 Ea

#1930L1Y \$16.55 Ea

This small LED Light provides a concentrated close quarter beam. The white LED lamp provides up to 10,000 hours of usage (Candle Power - 6,000, Lumens - 8.9, Watts - .18). Four replaceable #04-0320-00 alkaline coin cells (included) offer up to 130 hours of battery life. It is equipped with a neck lanyard and a handy push button on/off switch that can be used with only one hand. Ideal for all applications and is water resistant (but not for diving applications). Weight with batteries .156 lbs. Yellow

#700S \$15.95 Ea

Helmet (Hard Hat) Holder Fits: 2250, 1900 (1950), 2300 & 2400 Series

\$48.95 Ea. #8040M10BLK

An innovative hi-tech flashlight for use by professionals (30,000 Candlepower / 72 Lumens). 11-1/4" in length and equipped with a handy on/off intermittent switch. Made of chemical resistant, unbreakable material with a thermo plastic rubber grip. The lens is made of a high temperature nylon lens protected by a thermoplastic rubber shroud.

The sure grip sheath and head are made of thermoplastic rubber to resist chemicals and perspiration. Its bright pre-focused Xenon laser spot beam penetrates fog and smoke. It also includes a safety battery tray to hold 4 each "C" cell alkaline batteries (not included) in order to avoid accidents in case that cells are inverted. 4.8 Watts (6 Volts @ .80 Amps) with a Battery Burn Time of 7.7 Hours @ 50° F. It is water resistant (but not for diving applications). Weight with Batteries - 1.15 lbs. Black

 500 Feet

With LED

HeadsUP Lite™ an LED flashlight that's just as bright as a high performance incandescent 33 Lumens, without the annoying dark spots and irregular beam pattern caused by standard filament lamps. Here's the secret: by pointing the LED backwards into the reflector, 100% of the light is captured and projected forward. The squared spot on the beam is your proof that all available light is being used and there's no peripheral projection. It's a true collimated beam that cuts through thick smoke, dust, and the darkest abyss. Recoil LED Technology™. Weight w/Batteries .645 lbs. (6-Volts / 1-Watt). Includes (4) 'AA' Alkaline Batteries Battery Burn Time 33 Hours @ 50° F Shown with Cloth Strap. A Rubber Strap is Also Included.
